OUR PLATFORMS

Five products. Five identities. One Saudi engineering team.

Each platform has its own brand, its own users and its own job to do. Open any of them to see what it solves.

SudoERP

ARABIC-FIRST ERP · YAMAMA SOFTWARE

Every department. One connected dashboard.

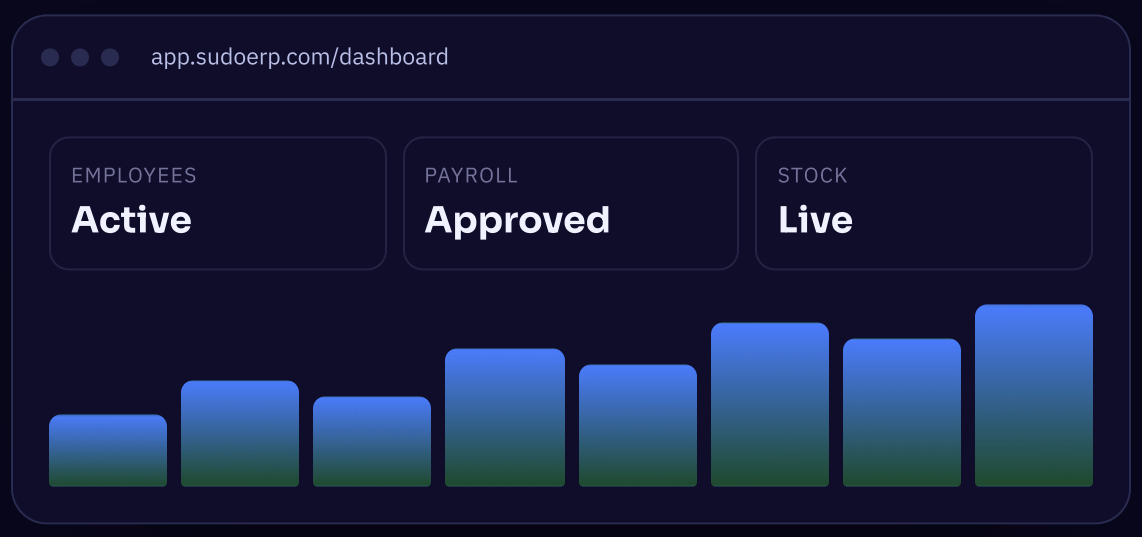

أول نظام ERP عربي، مبني بالعربي من الأساس.

Employees, attendance, leave, payroll, inventory, purchasing, projects and approvals in one place, built to compete with the global ERPs.

HR & attendance | Payroll & finance | Inventory & purchasing | Projects & approvals

G1ooF1oo

PROJECT & PORTFOLIO MANAGEMENT

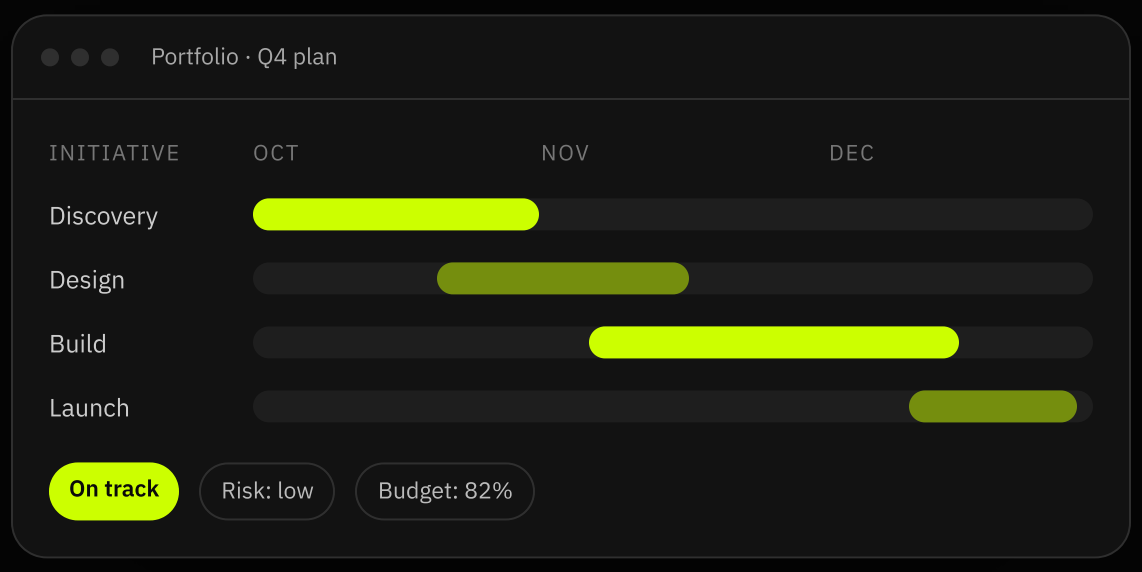

Plan anything, intelligently.

خطّط لكل شيء بذكاء.

A portfolio command center for progress, risk, budget and priorities, with capacity planning, Gantt and Kanban, and audit trails ready for government governance.

Portfolio command center | Risk & budget forecasts | Gantt · Kanban | 100+ integrations

تبصيرة Tapsiera

FOOTFALL & SALES ANALYTICS · IOT

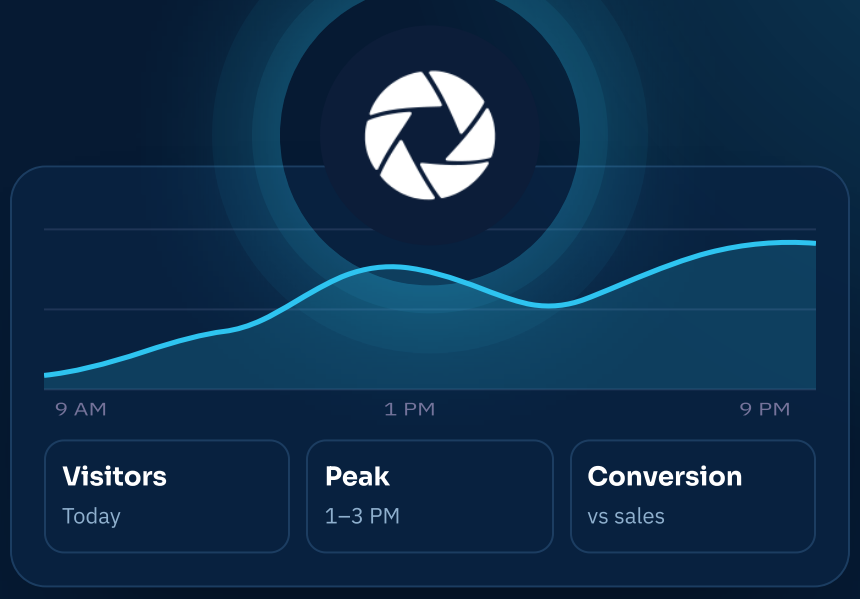

قرارك بعد التحليل.

Decide after you analyze.

A smart sensor at the entrance counts every visitor hour by hour and links it to your POS, so footfall and sales sit side by side for cafés, stores and malls.

Hourly visitor counts | Staff vs customers | POS integration | Branch comparison

TABNEE تبني

STUDIO · FROM IDEA TO LAUNCH

Build anything you imagine.

ابنِ أي شيء تتخيله، من البداية إلى الإطلاق.

Describe your idea and Tabnee Studio turns it into a tested, documented, production-ready app or website, built in clear layers you can review.

Data model · Logic & roles · Arabic RTL interface · Approved deploys

Demo Weaver

PRODUCT EXPLAINERS · AR / EN

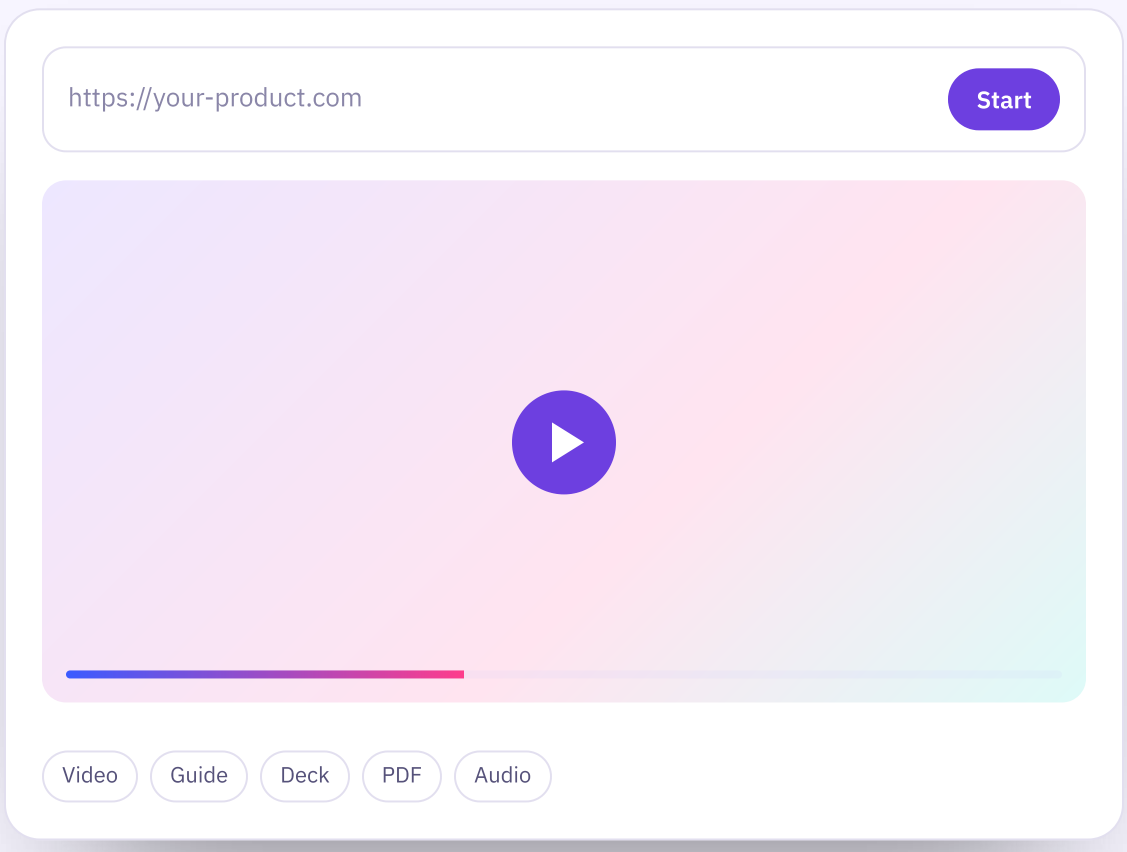

Add the source. Let your product speak.

أضف المصدر، ودع منتجك يتحدث.

Give it a link, a file or a test account. Demo Weaver explores the product and produces explainer videos, guides, decks, PDFs and audio summaries.

Explainer video | Step-by-step guide | Slide deck & PDF | Arabic & English

WHO WE SERVE

Built for both sides of the market.

GOVERNMENT SECTOR

Digital services that scale with the Kingdom's ambitions

- Portfolio and project governance with full audit trails
- Digitized internal workflows and service platforms
- Data isolation, security and compliance by design
- Structured delivery aligned with national transformation goals

GlooFloo · Sudo ERP · Tabnee

PRIVATE SECTOR

Technology that turns operations into growth

- Arabic-first ERP for growing companies and enterprises
- Footfall and sales analytics across branches
- Custom apps and product explainers
- ZATCA-ready finance and invoicing

Sudo ERP · Tapsiera · Demo Weaver

HOW WE DELIVER

A clear path from idea to go-live.

1 **Discover**

Understand the business and the real problem first.

2 **Design**

Scope, architecture, timeline and budget you can approve.

3 **Build**

Agile delivery with regular demos and QA at every stage.

4 **Launch**

Go-live, migration and training for real adoption.

5 **Grow**

Ongoing support and continuous improvement.

YAMAMA ASSISTANT

Ask anything about Yamama.

Explore the live platform

Scan the code or open the link to see every platform in action and ask our assistant anything, in Arabic or English.

امسح الكود لزيارة المنصة التفاعلية واسأل مساعد اليمامة عن أي شيء.
